The screenshot shows a web-based application titled "FastPro School Management" at "localhost:8080/School/school/examConfig.jsp". The main title is "Fastech Demo High School :EXAM CONFIGURATION PANEL: TERM 1:2016 / Update Term/Year /".

Exam Configurations :

ET F1: stands for, end of term form one, when ON only end term exam will be counted, affects FORM 1 only
ET: means end term, when ON it means only end term exam is considered, all cats will be excluded, affects F1-F4.
ET C2: when ON means only end term and cat 2 exams are included, cat 1 will be discarded, affects F1-F4.
ET C1 C2: when ON means cat 1 , cat 2 and end term exams will be counted, affects F1-F4.
Mode: when ON the system will compute P1,P2 and P3 , otherwise C1,C2 and ET.
C1: stands for cat 1 , C2 cat 2 , ET end term , P1 paper 1, P2 paper 2 and P3 paper 3.

Term	Year	Exam	Mode	SMS send	ET F1	ET	ET C2	ET C1 C2	Action
1	2016	ET	OFF	OFF	OFF	ON	OFF	OFF	<button>Update</button>

Grading Scale:

A	A-	B+	B	B-	C+	C	C-	D+	D	D-	E	Action
100 - 83	82 - 71	70 - 67	66 - 62	61 - 54	53 - 50	49 - 45	44 - 40	39 - 35	34 - 30	29 - 25	24 - 0	<button>Update</button>

Basic Variables:

- The menu has important function and care should be taken when changing any function.
- Here you can change term and/or year, you can alter the grading system, you can change the closing date and next term opening date and you can change the principal's comment that will appear in the report cards.

11.3: Exam controls

Altering Exam Configurations properties.

- 1) See the following properties.
 - i. Exam: This tells the system what exam the system should accept. So this must be updated accordingly. Example, if the students are doing their CAT 1 exams, the CC/CM should change update this property to the appropriate Exam, i.e. C1. Every exam has its own unique code as shown below.

Exam	Code
CAT 1	C1

CAT 2	C2
END TERM EXAM	ET
PAPER 1	P1
PAPER 2	P2
PAPER 3	P3

- CATs exams can be out of anything, say out of 100. When submitting the CAT results through excel, you must specify it was out of what. The system will convert the score into 30.
 - If you want to submit the result directly on the screen, the CAT result must be out of 30.
 - For end term exam, it must be out of 70 when submitting directly on the screen and when using excel it can be out of anything.
 - For paper 1, 2 and three, the result must be out of the specifications for the particular subject.
 - That is, mathematics paper 1 can only be out of 100, and paper 2 the same whether you are using excel or the other method.
- ii. Mode: exam mode can either be ON or OFF, when ON it means the system will take paper 1, 2 and 3 for form 3's and 4's. Otherwise the system will take Cat 1 and 2 plus the end term exam.
- iii. SMS send: when ON it means parents will receive an SMS with student's performance at the end of the term. It also means that parents will be receiving SMSes when students pay fee or when a student is added additional money. The SMS has the amount paid and the fee balance.
- iv. ET F1: Stand for End of Term, Form one only. Sometimes form 1's never get the chance to do CAT exams, in that case, this function should be turned ON. Otherwise it must be turned OFF.
- v. ET: stands for End term exam only: When this function is ON, the system will compute end term exam only for all the classes.
- vi. ET C2: When this is ON, the system will compute End of term exam and CAT 1 for all the classes.
- vii. ET C1 C2: when this is ON, the system will compute all the CATs plus end of term exam.
- viii. Only one of the last three can be ON at a time.
